

CERTIFICATE OF INTERNSHIP

EduSkills
ACADEMY

PRESENTED TO

Adarsh Choudhury

has successfully achieved the Internship Credential by completing a 10-week program in the domain of

Generative AI, Deep Learning & Language Models

During the internship, the learner demonstrated proficiency in:

- Transitioning to Deep Learning & PyTorch Fundamentals & Building and Training Neural Networks in PyTorch
- Introduction to Transformers and Attention Mechanisms & Hugging Face Transformers: Pre-trained Models and Tokenization
- Fine-tuning Pre-trained Models for Specific Tasks & Parameter-Efficient Fine-Tuning (PEFT) Techniques
- Text Embeddings and Semantic Similarity & Vector Databases for Semantic Search
- Retrieval-Augmented Generation (RAG) - Part 1: Retrieval & Retrieval-Augmented Generation (RAG) - Part 2: Generation
- Building Custom Chatbots with LLMs & Advanced LLM Techniques: Agents and Tool Use
- Generative AI for Content Creation & Evaluation Metrics for Generative Models & Safety, Ethics, Bias, and Hallucinations & Advanced Prompting: Chain-of-Thought and Few-Shot Learning & Introduction to Multi-Modal Generative AI
- Optimization Techniques for Efficient Inference & Project: Fine-tuned Sentiment Classifier with Custom Data & Project: Building a RAG-Powered Question Answering Bot & Best Practices for Deploying Generative AI Models & Capstone Project: Domain-Specific RAG Assistant for Technical

This certification recognizes the successful completion of the internship requirements.
